DATA FROM THE HEALTH CARE COST INSTITUTE

HCCI is a mission-driven, independent, nonprofit organization dedicated to making the US health care system work better by unlocking insights and opening doors to more accessible, more affordable, and more equitable care.

To find out more about HCCI visit HCCI's website.

HEALTHPRICES.ORG

A PATIENT TOOLKIT FOR HEALTHCARE PRICES

The Health Care Cost Institute's Health Price Toolkit contextualizes the care delivery system, enabling consumers to find information on health care costs by providing average prices for a set of industry-standard services.

The data presented includes Medicare and commercial prices for health care services and includes the range of prices really paid by insurance.

Look up nearly **500** of the most commonly billed services and empower price transparency in health care.
